Terms and Conditions

CUSTOMERS are requested to state mode of shipping, express or freight, and by what route. When none is given, we exercise our judgment, but in no case do we assume responsibility after goods are shipped, unless for our own mistakes.

While we exercise the greatest care to have all trees, shrubs and plants sold by us genuine and reliable, and hold ourselves prepared to replace, on proper proof, any that may prove otherwise, we do not give any warranty, expressed or implied, and in case of any error on our part, it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than the original price of the goods.

All claims for errors or deficiencies must be made immediately upon receipt of the goods.

TERMS: Cash with order from unknown parties, or satisfactory references.

Five hundred will be furnished at the thousand rate; fifty at the hundred rate, and five at the ten rate.

The prices quoted are for our selection and are effective until June 1st, 1929. Where stock is selected by customers it will be charged for in accordance with its value.

Shipment in bulk will be packed at no charge. Where packing is done in boxes or bales a charge will be made to cover the cost of material used.

A certificate of inspection from the State Entomologist will accompany each shipment.

The Spring shipping season usually begins here about March 15th and the Fall season for Evergreens, August 15th. Deciduous stock, October 15th.

Eatontown is on route No. 4 of the New Jersey State Highways, and about forty miles from New York on the Southern Division of the C. R. R. of N. J.

WE SPREAD OURSELVES

This Wholesale Trade List is the only representative of our Nurseries we are sending you. If you are interested in stock of exceptional quality, that has been carefully and correctly grown with a view to successful transplanting, and offered at fair prices, we solicit your patronage.

During the 1928 Fall season, the wholesale end of our business showed a gain of 46% over 1927, and 101% over 1926, and knowing as you do, the conditions as they have been during the past three Fall seasons, we believe you will agree that this expresses the great confidence our many friends repose in us and our stock.

During December and January we have booked more wholesale orders for Spring delivery than ever before, mostly from old friends who know from experience that they are safe with us.

There's a reason. Why not get in line?

STEELE'S SHREWSBURY NURSERIES

Deciduous Trees

Only those trees which conform to the highest recognized standards are included in this list. We do not inventory stock which cannot be used by the most discriminating buyer.

For large specimen trees for immediate landscape effects, ask for special quotation.

Evergreen Trees

In comparing evergreen values, there is probably nothing more misleading than a bare price list description.

Evergreens, to be successfully handled, must be grown on soil ideal for the purpose and constantly transplanted. We have the right soil and unstintingly furnish the treatment necessary to produce specimen plants.

Dealers who have used our evergreens for many years tell us that the percentage of losses on our stock is much lower than on the stock obtained from any other source.

Prices quoted include digging with ball and burlapping.
